

Eyelid Everter

LidVue VEE-100

Quickly Capture Meibomian Gland Images

Listen to the clinical

Product Design Concept

LidVue is a convenient tool for technicians to operate lower eye lid eversion for meibomian gland imaging.

Equipped with MeiboVue smartphone meibographer and LidVue, technicians can capture meibomian gland images anywhere in the practice. This largely optimizes dry eye screening work flow so that the clinicians can diagnose more patients every day.
